

Up until 1983 official federal information concerning military service was published around the villages using giant posters.

Gilbert May (1923-2010) was a military officer and ski patroller and winner of the Patrouille des Glaciers in 1949. When he retired, he became the first miller-sawyer of the mill (la Scie et des Moulins) which he renovated with Maurice Michellod (1924-1998) and then later with Willy May (1927-1995).

On the left of the photo you can see Gilbert May at the finish of the Patrouille des Glaciers in 1949.
